Terminal Unit Sockets & Base Blocks

Base Block, Side Hose

The base block of the terminal unit line is suitable for all sockets of all standards: NF-S 90-116, BS 5682, DIN 13260-2 and SS 8752430; simple installation and quick maintenance, the base block is adjustable in 6 positions thanks to the provision of n° 6 holes for fixing, once the base block is fixed the socket can be rotated to the correct position.

Features

- Compatible with all sockets
- 6-position adjustable base
- Side hose holder Ø 6 mm

Standards

- UNI EN ISO 7396-1
- UNI EN ISO 9170-1
- UNI EN ISO 15001

Components

- Base block in brass
- AISI 316 Gas specific gear
- EPDM perox O-Ring
- Hose connection outer Ø6 mm
- ABS cap

All variants: Ø 6 mm tube, 0.11 kg.
