ULTRA CONTROLO

Cylinder Trolley

Medical Gas Systems

Cylinder Trolley

A robust and efficient solution designed exclusively for the safe transportation of medical gas bottles. Crafted with precision and built for durability, this trolley ensures seamless mobility in medical facilities, ensuring the integrity and safety of gas storage and handling.

Characteristics

Durable Construction: Built on a foundation of zinc-plated steel tube chassis, the Cylinder Trolley offers exceptional strength and resilience, making it a reliable choice for rigorous medical environments.

Secure Bottle Fixation: Equipped with an adjustable chain fixation mechanism, ensuring the gas bottles are firmly held in place during transport, minimizing the risk of shifts or slips.

Smooth Mobility: Enhanced with pneumatic wheels measuring 300 x 4, featuring zinc-plated steel rims and dual bearings, the Cylinder Trolley ensures effortless movement across various surfaces while maintaining stability and control.

Specifications

Height	110 cm
Width	70 cm
Length	50 cm
Weight	6 kg
Load	280 kg

Models

CTG 01-1	20L	1 x 20
CTG 01-2	20L	2 x 20
CTG 02-1	50L	1 x 50
CTG 02-2	50L	2 x 50
