ULTRA-CONTROLO

High-Capacity Cylinder Regulators

In-Line Regulator, 150 Nm^3/h

CYLINDER PRESSURE REGULATORS

High-Capacity Cylinder Regulators

In-Line Regulator, 150 Nm³/h

Line pressure regulator for medical gases with dual pressure gauge (high and low pressure). Used to reduce and stabilise pipeline pressure. All variants are rated to 30 bar and weigh 11 kg.

Features

- Dual high/low pressure gauge
- G1/2" inlet and outlet
- Line-mount

All variants: 150 Nm³/h, 30/12 bar, 11 kg.
