Terminal Unit Sockets & Base Blocks

Base Block, Side Pipe

The base block of the terminal unit line is suitable for all sockets of all standards: NF-S 90-116, BS 5682, DIN 13260-2 and SS 8752430; simple installation and quick maintenance, the base block is adjustable in 6 positions thanks to the provision of n° 6 holes for fixing, once the base block is fixed the socket can be rotated to the correct position.

Features

- Compatible with NF-S 90-116, BS 5682, DIN 13260-2, SS 8752430
- 6-position adjustable base
- Side-mounted Ø 8 mm pipe

Standards

- UNI EN ISO 7396-1
- UNI EN ISO 9170-1
- UNI EN ISO 15001

Components
